

Return to Paddleability, a Step-By-Step

We are looking forward to seeing you back on the water. To do this, we need to follow a few steps to make sure that we can be as safe as possible, whilst still enjoying our 'much-missed' paddling. You will be guided when needed, so don't panic! We do still need to keep socially distanced, too.

1

Arrive at the Boathouse, at 6:15pm. We will call you in one at a time to kit-up and then wait out the back door with your boat and paddle.

2

Once we are ready, we will be able to access the jetty. (Max. Four boats.) Sticking to the right side of the ramp, one of us will stay at the top, and another, will help at the water's edge.

3

On our return, we will simply reverse the process, making sure we keep to the right side of the ramp, still with only four boats on the jetty at any one time.

4

We shall bring our boats to the back door, where they will be cleaned. Leave all kit in the boat, and head home.
